Additional Information:

- Schools cannot roll over funds to future years.
- All funds raised for the Iron Giraffe Challenge may be applied towards well sponsorship efforts.
- Due to our small staff, if donating by check, we strongly encourage schools to collect individual donation checks and send WFSS one check.
- Schools are encouraged to send donations with postal tracking in order to ensure receipt by our office. Water for South Sudan is not responsible for donations sent but not received.
- While multiple classes from the same school are welcome to fundraise for the IGC, the school will receive only one entry in the drawing.
- Visits and video calls are subject to availability. We will make every effort to provide a video call if an in-person visit is not possible. Each school will be eligible for only one visit or video call with Salva during the 2023-24 Iron Giraffe Challenge.
- If your school is selected as the winning school for a visit from Salva, lead educators should be prepared to help plan and execute the visit with minimal support from the small WFSS staff. Aside from the visit to your school, the winners can also take on additional responsibilities including event planning, accommodations for WFSS staff (as able), and other coordination assistance.
- Calls and visits must be scheduled within the calendar year, and WFSS reserves the right to schedule into the following school year if necessary.
